SPANISH LANGUAGE

Enhancing student bi-literacy is an important aspect of the trip. Activities and excursions have been carefully planned with education in mind. Students will spend time in immersion classes and tours taught by CLIC professors who engage learning in a hands-on way.

CULTURE

Step outside your comfort zone and experience being the stranger while your eyes become opened to the history, customs, and traditions of the Spanish people. As students move on in their academics, they have these firsthand experiences to draw upon when analyzing history, examining differing opinions, and extending global awareness.

MEMORIES

After nine years of traveling with students, one of the repeated favorite parts of the trip is living with host families during their stay in Seville. Host moms and/or dads provide home cooked meals, laundry services, and family time where our students are given ample opportunities to communicate and get to know their host family.
